

PRESS RELEASE

August 2012

Vitrex Mosaic & Glass Tile Nipper

Introducing a new, innovative tiling tool from QEP, the world's leading supplier of tiling & flooring installation equipment – the Vitrex Mosaic & Glass Tile Nipper.

The Vitrex Mosaic & Glass Tile Nipper is designed to easily cut glass tile without the use of conventional glass cutters. In addition, these nippers are ideal for quickly cutting small mosaic pieces of glass, as well as removing tiny points from glass tile.

- Ideal for cutting awkward shapes around pipes
- Cuts glass tiles & mosaics up to 6mm thick

The Vitrex Mosaic & Glass Tile Nipper is easy to use - simply hold the nipper in a scissors like manner, line up the cutting wheels with the desired cut or shape & then squeeze the handles gently. The wheels do not need to turn when you are cutting.

When the cutting wheels dull, simply loosen with the hexagonal key supplied, rotate the wheels slightly and then re-tighten the screws.

Vitrex – sign of a professional job
